

92nd District Court

Offering repeat drug and alcohol offenders a chance to recover from their addictions, a new Drug Court program began January 1, 2007 in Mackinac and Luce counties. The comprehensive program offers reduced jail sentences or decreased probation time in exchange for receiving professional help, court monitoring, and daily drug testing.

The Drug Court is overseen by 92nd District Court and is comprised of a law enforcement panel that reviews cases recommended by Judge Beth Gibson.
